15. Fill in the blanks to set up the student username and password. There will be several more pages where you'll enter parent information, select Bloomingdale as your school, and select your counselor.
16. Once your account is created, you'll submit your course request, and your counselor will approve your course.
17. You'll get assigned a teacher around the start date you selected. That teacher will send a message to your virtual account with their information. You'll call the teacher and they'll explain how the class works (were to find assignments, how to submit work, etc.). Once you've done the welcome call, you'll be activated and can work through the class. Once you complete the class, virtual school will send the grade to Bloomingdale and it will be added to your transcript.
